---

**ROLL SIZE:** 10M2

Circoll Sustainable Underlay is made totally from recycled rubber and Virgin carpet offcuts.

The rubber crumb is a firm base and offers great compression recovery from heavy furniture the felt layer offers excellent sound insulation.

Our quality underlays help to extend the life of your flooring keeping it looking new for longer. Acting as a shock absorber the underlay will stand up to where and tear as well as providing cushioning underfoot when paired with carpet.

Circoll Sustainable Underlay Range is made in the UK by Anglo Recycling.
